

Business Analyst – London

Introduction

Sumitomo Corporation Europe Ltd is a subsidiary of Sumitomo Corporation, a world leader in integrated trading and investment. We have access to a global network of more than 75,000 people across 66 countries. We take great pride in our technical know-how and operational ability, which is combined with a drive to keep customer service at the heart of what we do. To achieve this, we recruit high calibre individuals, we invest in their training, and give them accountability and responsibility as soon as they are ready. Find out more: www.sumitomocorp.com/en/jp/about.

Role

This role will contribute to the development and implementation of these objectives by exploring and analysing opportunities as they arise, building business cases and generating material to be used in Investment Committee applications. The person will work in close in collaboration with the EII Team in the UK, Japan and other corporate departments.

The role will provide opportunity for training and development that will generate an accelerated understanding of the investment criteria and processes within SCEU.

This role will report into the Manager within the Battery & Energy Solutions Department.

Scope

- Support Department General Manager (DGM) and other Members of Battery & Energy Solutions Department to develop new business including gathering information, investment sourcing and deal making (setting marketing and strategy, meeting & negotiating with advisor / seller / partner) and deal execution
- Liaise and support more general EII business development as required
- Preparation of internal application materials including business plan so that management can make a suitable decision on strategy and investment
- Contribute to the monitoring and performance assessment of 'live' investments
- Support strategic exit of investments as required.

Qualifications/Skills/Personal Qualities

Qualifications:

- Undergraduate university education or higher (technical discipline associated with energy management or sustainability preferably engineering or mathematics)

Skills:

- Self-manage time and priorities in an independent project role
- Excellent communication and interpersonal skills and team player
- Excellent understanding of retail and/or trading functions within UK Energy sector
- Good understanding of UK energy markets
- Proficient in MS Office
- Interaction with market systems or specific trading/pricing tools (preferred)

Personal Qualities/Attributes:

- Eager to tackle challenges, self-driven and self-confident
- Happy to travel when required, mainly in Europe though occasionally further afield
- Enthusiastic and eager to learn with an analytical skillset
- Have a wider perspective of UK and/or European energy industry and an interest in the energy transition.

What We Offer

Company benefits include group pension scheme, private health insurance and free leisure centre/gym membership to name but a few.
