Cautionary Statement Concerning Forward-looking Statements

This report includes forward-looking statements relating to our future plans, forecasts, objectives, expectations and intentions. The forward-looking statements reflect management's current assumptions and expectations of future events, and accordingly, they are inherently susceptible to uncertainties and changes in circumstances and are not guarantees of future performance. Actual results may differ materially, for a wide range of possible reasons, including general industry and market conditions and general international economic conditions. In light of the many risks and uncertainties, you are advised not to put undue reliance on these statements.

The management forecasts included in this report are not projections, and do not represent management's current estimates of future performance. Rather, they represent forecasts that management strives to achieve through the successful implementation of the Company's business strategies. The Company may be unsuccessful in implementing its business strategies, and management may fail to achieve its forecasts. The Company is under no obligation -- and expressly disclaims any such obligation -- to update or alter its forward-looking statements.

* 2 "Interest-bearing liabilities" is sum of bonds and borrowings (current and non-current), excluding lease liabilities. Figures in parenthesis in "interest-bearing liabilities" show "interest-bearing liabilities, net".

* 3 "Shareholders' equity" is equivalent to "Equity attributable to owners of the parent" in Consolidated Statements of Financial Position.

* 1 Basic profit cash flow = Basic profit - Share of profit (loss) of investments accounted for using the equity method + Dividend from investments accounted for using the equity method

Basic profit = (Gross profit + Selling, general and administrative expenses (excluding provision for doubtful receivables) + Interest expense, net of interest income + Dividends) × (1-Tax rate) + Share of profit (loss) of investments accounted for using the equity method

<Current situation>

- ✓ Global economic slowdown due to outbreak of the COVID-19 and deterioration of business environment caused by the U.S-China trade issues etc. are impacting our activities.
- ✓ We have secured ample liquidity to keep our operation at this moment. However, since the uncertainties on future outlook is increasing, we have changed our mindset to “emergency mode” and will prepare for prompt recovery for upcoming post-COVID-19 while maintaining the financial soundness.

<Initiative in FY2020>

- ✓ Screen investment severely and generate further cash flow to hold back the decrease of free cash flow, and enhance financial soundness by reducing interest-bearing liabilities. As for shareholder return, keep the same level of dividend as for the previous fiscal year following on our basic policy of paying shareholders a stable dividend over the long term.
- ✓ Examine influence of the COVID-19 and execute drastic structural reform including reviewing our strategies on portfolio management and upgrading our sustainability management to realize the prompt recovery for post COVID-19.

Screen investments

Review plans for new and renewal investments and execute only essential investments to future growth

Generate higher level of cash flow

Pursue lean operation through steady asset replacement, working capital improvement, and cost reduction

Promote drastic structural reform

Promote bold structural reform such as business value-up, replacement acceleration, portfolio review, sustainability management enhancement

5. Forecast of FY2020 and current situation by segment

- ✓ It is difficult to make reasonable assumption about forecasts for FY2020 at this moment.
(there is a possibility to have financial impact for more than 100.0 billion yen subject to assumption.)
- ✓ We will disclose the annual forecasts promptly after confirming and analyzing the information on resuming economic activities such as plans to lift lockdowns of each countries.
- ✓ Current situation reflecting COVID-19 influence is as follows.

6. Dividend for FY2019

Basic policy

To increase dividends by achieving mid-long term earnings growth while adhering to the Company's fundamental policy of paying shareholders a stable dividend over the long term

"Medium-Term Management Plan 2020" Dividend Policy

We will decide the dividend amount in view of the situations regarding basic profit and cash flow, with a consolidated payout ratio of 30% as a guideline.

Dividend

FY 2019

Annual dividend: 80 yen/share

(Interim dividend: 45 yen/share,

Year-end dividend: 35 yen/share [plan])

171.4 billion yen of profit for the year was lower than expected in February, albeit mainly due to non-cash losses. We plan 80 yen of dividend per share for FY2019 as announced previously based on our basic policy.

FY 2020

Annual dividend: 70 yen/share

(Interim dividend: 35 yen/share,

Year-end dividend: 35 yen/share [plan])

We plan 70 yen of dividend per share for FY2020, the same as the amount of ordinary dividend for FY2019 based on our basic policy, though negative impacts on our financial performance is inevitable due to current business environment.
