Mission Statement

Sumitomo Corporation Group's Corporate Mission Statement Founded on the Sumitomo's Business Philosophy

Sumitomo was founded around 400 years ago, in the 17th century. Based on the founder, Masatomo Sumitomo's idea of how merchants should conduct business, Sumitomo's modern-day business philosophy "Business Principles" places importance on not being misled by changes that are happening right before us, but pursuing integrity and sound management at all times, rather than easy gains. We must stay a step ahead with an enterprising spirit in dealing with change. Sumitomo Corporation Group's Corporate Mission Statement is based on this Sumitomo's Business Philosophy, which has been passed on for 400 years.

Sumitomo Corporation Group's Corporate Mission Statement

Corporate Vision

We aim to be a global organization that constantly stays a step ahead in dealing with change, creates new value, and contributes broadly to society.

Management Principles

[Corporate Mission]	To achieve prosperity and realize dreams through sound business activities
[Management Style]	To place prime importance on integrity and sound management with utmost respect for the individual
[Corporate Culture]	To foster a corporate culture full of vitality and conducive to innovation

Activity Guidelines

- To act with honesty and sincerity on the basis of Sumitomo's business philosophy and in keeping with the Management Principles
- To comply with laws and regulations while maintaining the highest ethical standards
- To set high value on transparency and openness
- To attach great importance to protecting the global environment
- To contribute to society as a good corporate citizen
- To achieve teamwork and integrated corporate strength through active communication
- To set clear objectives and achieve them with enthusiasm

Who We Are

Sumitomo Corporation Thailand Ltd. (SCTL)

is a wholly owned subsidiary of Sumitomo Corporation Asia & Oceania Pte. Ltd. and an integral member of Sumitomo Corporation (SC) Group, a global trading and investment organization with headquarters located in Japan. The history of Sumitomo dates back to more than 400 years ago and its founding principles, stressing integrity and sound management, have been guiding the growth and evolution of all SC Group companies.

Based in Thailand, SCTL has grown as an integrated business enterprise within the Thai economy since 1960. Our core function trading activities handle a broad range of products from various trade sectors throughout our six business divisions – Metal, Automotive and Transportation & Construction Systems, Energy Transformation & Urban Development, Chemical, Electronics & Agri Business, Mineral Resources and Media, Digital, & Lifestyle. Our activities are supported by the diverse business interests and global network of the Sumitomo Corporation group. Furthermore, as another core function we invest in developing diverse potential businesses.

Sumi - Thai International Limited (STIL)

is a subsidiary of Sumitomo Corporation Group established since 1974 for operating businesses completely under Thai Laws. The management team and personnel of STIL and SCTL are an integrated team, with extensive experience in our trading activities. Our operations in STIL are focused on the same trading and investment functions as SCTL.

Key Industrial Areas

Metal

Automotive and
Transportation &
Construction Systems

Energy
Transformation &
Urban Development

Chemical, Electronics
& Agri Business

Mineral Resources

Media, Digital, &
Lifestyle

Metal Division

- Steel Products Dept. No. 1
- Steel Products Dept. No. 2

The Metal Division participates in all business areas related to steel products and steel tubular products.

The business unit offers unique service features in response to customer needs both domestically and internationally, while building a strong value chain along each product line. The principal products and services of the Metal Division are raw materials for steel mills, construction material, railways products, hot and cold flat rolls steel sheet, bars and wire rods, forging products, welded and seamless pipe and many others.

The Metal Division has two main business areas; steels for automotive materials are managed by Steel Products No.1 and steels for construction materials and flat steels related

1. Long Products
2. Forging Products
3. Flat Rolled Steel Products
4. Construction Steel Materials

Automotive and Transportation & Construction Systems Division

- Automotive Dept.
- Transportation & Construction Systems Dept

The Automotive and Transportation & Construction Systems Division connects automotive related businesses together from part sourcing, logistics, and the installation of production equipment for leading car manufacturers in order to grow along with the automotive industry in Thailand and to broaden our products over the Asian region.

We have particular expertise in global marketing, having established dealerships for cars, and the leasing of cars and motorcycles financing as well as tire distribution through the operation of our subsidiary companies.

Automotive Department is handling all related businesses of car, motorcycle, truck and machinery equipment.

1. Automotive Components
2. Truck Business
3. Machines and Equipment Business

Energy Transformation & Urban Development Division

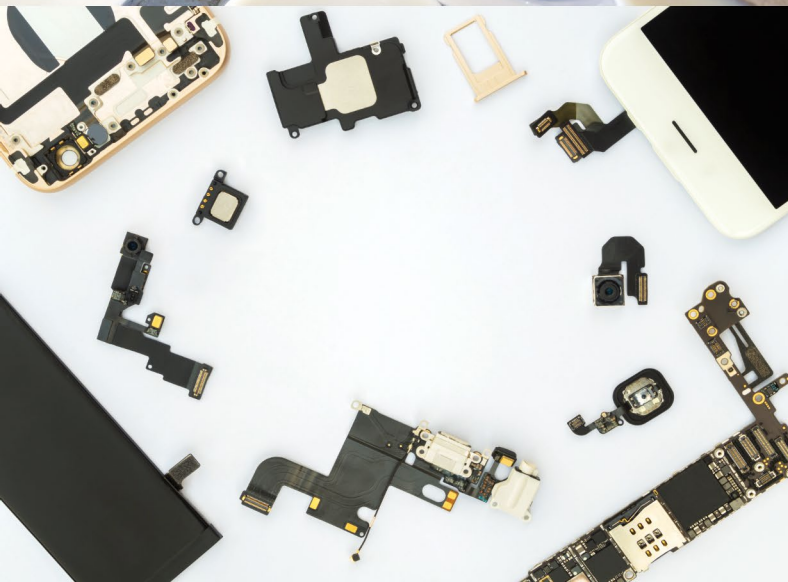

- Power Infrastructure Dept.
- Urban Development Dept.
- Energy & EII Dept.

The Energy Transformation & Urban Development Division focuses on leading the transition to renewable energy, enhancing energy efficiency, and driving innovative urban development projects that align with global sustainability goals.

Over the years, we have consistently contributed to sustainable growth and development, both domestically and regionally. Our core strengths lie in power plant development and power supply, encompassing both conventional gas power and renewable energy. Additionally, we continue to achieve significant accomplishments in the urban development field through various initiatives, including providing integrated logistics services, optimizing manufacturing processes via machinery trading, and developing urban railway projects.

As we move forward, we are continuously committed to advancing projects that not only align with sustainability goals but also seek innovation in the energy and urban development sectors.

1. Power Plant
2. Mass Transit System
3. Rooftop Solar
4. Logistics Business

Chemicals, Electronics & Agri Business Division

- Basic Chemicals Dept. No.1 (Organic Chemicals)
- Basic Chemicals Dept. No.2 (Plastics / Automotive)
- Basic Chemicals Dept. No.3 (Plastics / OA, HA, Packaging)
- Electronic Materials Dept.
- Inorganic & Performance Chemicals Dept.
- Life Science Dept.

The Chemicals, Electronics & Agri Business Division covers a wide – range of products, comprising basic chemicals including Organic Chemicals and Plastics, Inorganic Chemicals, Performance Chemicals, Electronics Materials and Life Science related chemical materials. Through our worldwide network, we are doing business in numerous industries competitively and reliably.

Our division consist of several business line as follows:

- (1) Basic Chemicals business line:
 - 1) Organic chemicals field, we are handling varieties of Methanol, Olefins, aromatics, phenol chains, solvents, variety of monomers, etc.

Corporate Social Responsibility

Social Contribution Activities

One of the credos of Sumitomo's Business Philosophy, passed down for 400 years, says: "Benefit for self and others, private and public interests are one and the same". This means that Sumitomo's business activities must benefit not only Sumitomo's own business, but also society and the nation. The idea behind this credo represents the essence of corporate social responsibility, and has been carried on in Sumitomo Corporation Group's (the SC Group)

"We aim to be a global organization that constantly stays a step ahead in dealing with change, creates new value, and contributes broadly to society.", Sumitomo Corporation Group's Corporate Mission Statement.

Sumitomo Corporation Thailand Ltd. and Sumi-Thai International Limited, a global organization and one of Sumitomo Corporation Group, we are aiming not only to create and develop a sound business, but also to contribute and continuously drive a sustainable growth in our community as well as in globalization.

Let's Grow Together !
