## Purpose

The purpose of Sumitomo Corporation Corporate Governance Principles (hereafter, “these Principles”) is to set out the fundamental principles relating to corporate governance at Sumitomo Corporation (hereafter, “the Company”).

### Circumstances Leading to Adoption of these Principles

2.1 The circumstances leading to adoption of these Principles are as follows:

1. **The business spirit of Sumitomo** is a business and management concept that has continued to flow throughout Sumitomo’s operations for over 400 years. The Sumitomo Spirit was embodied in the “Business Principles” drafted in 1891 (in the 24th year of Meiji). Namely:
   - Sumitomo shall achieve strength and prosperity by placing prime importance on integrity and sound management in the conduct of its business.
   - Sumitomo shall manage its activities with foresight and flexibility in order to cope effectively with the changing times. Under no circumstances, however, shall it pursue easy gains or act imprudently.

2. **In 1998, the Company adopted the following “Management Principles”** together with its “Activity Guidelines”, based on the Sumitomo Spirit:

   We aim to be a global organization that constantly stays a step ahead in dealing with change, creates new value, and contributes broadly to society.

   - To achieve prosperity and realize dreams through sound business activities.
   - To place prime importance on integrity and sound management with utmost respect for the individual.
   - To foster a corporate culture full of vitality and conducive to innovation.

3. **The Sumitomo Spirit and Management Principles are the ethical backbone of the Company and serve as the unwavering truths that support corporate governance.** Realizing that, the Company
repeatedly engaged in studies concerning an optimal managerial system, namely a method of governance which is responsive to the trust placed in us by our shareholders while at the same time making management that takes in the interests of all stakeholders a reality.

(4) Based on the above, the Company views the essence of corporate governance as being the “improvement of management efficiency” and the “maintenance of sound management,” as well as the “securing of managerial transparency” which is required to accomplish the same. The Company therefore established these Principles as its principles concerning corporate governance.

2.2 The Company realizes that following these Principles to establish and maintain better governance and pursue its business activities will help it to grow and develop sustainably as a corporation. In addition, such efforts will help the Company to enhance its corporate value over the medium-to-long term and to fulfill its social mission as a corporation. Realizing, moreover, that this will also serve the interests of its shareholders and all its other stakeholders, including clients, employees, and local communities, the Company plans to maintain unstinting efforts to improve its governance still further in future.
